Rajiv Kumar Gupta
Back-end Developer

OBJECTIVE

To work in a dynamic and growth-oriented environment where I can leverage my 1 year of experience in backend development, along with my knowledge, skills, and creativity, to contribute to the organization's success and further my own career development.

TECHNICAL EXPERIENCE

• Proficient in back-end development using Express.js and Nest.js

• Skilled in building responsive, user-friendly, and SEO-friendly web applications

---

TECHNICAL SKILLS

Language	JavaScript, Typescript
Framework	Express.js, Nest.js
Back-End	Node.js
Database	MYSQL
Server-Side Scripting	Typescript
IDE	Visual Studio Code

PROJECTS HANDLED

1. CONNECT INDIA ENTERPRISES

Details   A comprehensive web application designed to provide users with access to a range of financial services, including Systematic Investment Plans (SIPs), loan applications, and insurance policy comparisons. The platform offers an intuitive interface for users to explore financial products, calculate EMIs, submit applications, and track their status. It emphasizes ease of use, responsive design, and secure data handling to enhance the overall customer experience.

Technologies: NextJS and NodeJS & MySQL database.

Role: Backend Developer (Express and Typescript).

Duration: Deployed on client server.

Responsibilities: I gathered and analyzed project requirements, collaborated with a team of three developers, and took ownership of specific modules where I implemented feature enhancements to improve overall functionality and usability. Additionally, I worked closely with frontend developers and UI/UX designers to ensure a seamless and user-friendly experience across the application.
